AIR COMPRESSORS

INDUSTRIAL SERIES BASEMOUNT COMPRESSORS

The INDUSTRIAL series has been designed to operate in the most demanding of conditions. They are supplied with an integrated Dryer and Filtration system or without. Low running costs, high air output and a heavy duty drive system from the electric motor to the air end allows for low maintenance costs. Paramount in the design of the industrial series is quality and the ability to supply a constant and reliable air supply in the most arduous of environments.
